

# Tribute Plus

Sustainable Herbicide Solutions  
with total droplet control

## Why should I use Tribute Plus?

Will not harm grass when applied at recommended rates

- selective action

### Versatile

- use on all amenity turf areas to control a wide range of annual and perennial broad-leaved weeds

### Highly effective

- controls difficult weeds such as yarrow and ragwort at low application rates

### Safer for operators

- ready to use pack means no mixing or measuring, eliminating the risk of spillages and operator exposure

### Reduced environmental impact

- targeted application with virtually no spray drift or droplet bounce

### Safer for bystanders

- Nomix Total Droplet Control (TDC) low volume formulation and no breathable droplets

## Where can I use Tribute Plus?

Tribute Plus is a selective TDC herbicide, used to control broad-leaved weeds in all amenity turf situations, including sports grounds, playing fields and parks.

The unique formulation of Tribute Plus ensures effective control of even difficult and deep-rooted weeds such as dandelions, yarrow, plantains and ragwort.

Golf courses

Bowling greens

Playing fields

Parks

Sports grounds

## How does Tribute Plus work?

Tribute Plus combines the selective and systemic actions of MCPA, Mecoprop-p and Dicamba. The unique TDC formulation is quickly absorbed by the leaves and translocated to the roots of the weed, ensuring fast, effective control, without harming grasses.

Droplet sticks to the leaf

Droplet spreads

Selective herbicide penetrates

## How do I apply Tribute Plus?

Tribute Plus is a pre-mixed herbicide for use with the Nomix range of TDC applicators .

Tribute Plus is quick and easy to apply. Simply shake the pack, connect it to the applicator, calibrate and you are ready to start spraying.

Apply Tribute Plus from April to September, when the grass and weeds are actively growing.

Common weeds, including white clover, plantains, daisy, creeping buttercup and thistles

**6 litres/ha**

Difficult weeds, including yarrow, parsley piert, cinquefoil, trefoils, selfheal, pearlwort, sorrel, black meddick, dandelion and bulbous buttercup

**8 litres/ha**
